

Media Release

Stephen Pasture Seeds to assist fire affected farmers with pasture recovery

With predicted rain for this weekend and early next week, bushfire affected farmers may soon take the opportunity to plant much needed forage crops and pastures to replenish necessary feed demands. As our part in supporting local communities and our customers who have been affected by these devastating fires, we will be offering assistance to affected customers in the provision of seed and advice on how they can maximise the feed produced from pastures immediately following the rain.

Stephen Pasture Seeds will offer the following support to those farmers affected by fires by providing:

- Fire recovery seed blends that meet farmers immediate needs for fast feed;
- Free delivery and extended finance to customers servicing fire affected farmers;
- Technical advice on-line, in print and face to face on the agronomic management of fire affected pastures.

Our thoughts go out to all of those who are affected by this immense disaster. Please do not hesitate to contact our customer service team or your local territory manager for further information and assistance;

**Simon Hunt in Gippsland on 0428 457 044 or
Barry Dow in North-Eastern Victoria on 0400 895 650.**
